

IActivationFunction

```
graph BT; Sigmoid --> IActivationFunction; Tanh --> IActivationFunction
```

The diagram illustrates a class hierarchy or inheritance relationship. At the top is a gray rectangular box labeled 'IActivationFunction'. Below it are two white rectangular boxes, 'Sigmoid' on the left and 'Tanh' on the right. Two blue arrows point from the top of the 'Sigmoid' box and the top of the 'Tanh' box towards the bottom of the 'IActivationFunction' box, indicating that both 'Sigmoid' and 'Tanh' inherit from or implement 'IActivationFunction'.
